SIG SAUER, Inc. • 72 Pease Boulevard • Newington, NH 03801 USA • +1 (603) 610-3000

An ISO 9001:2015 Certified Company. Manufacturing in the U.S.A.

All trademarks, service marks, trade names, trade dress, product names and logos appearing in this catalog are the property of their respective owners. No trademark or service mark appearing in this catalog may be used without the prior written consent of the owner.

In our state-of-the-art facilities across eight locations worldwide we manufacture the finest firearms, electro-optics, ammunition, suppressors, and airguns, while also offering world-class firearms and tactical training at the SIG SAUER Academy℠.

At SIG SAUER® we are driven by our relentless pursuit to manufacture products of unparalleled quality, an unwillingness to compromise, and our absolute refusal to settle. We are our emboldened by our love of freedom and share the same passion and pride for our country as those who choose the SIG SAUER brand.

Regardless of whether a SIG SAUER product is being deployed on the battlefield by a soldier, protecting law enforcement as an official duty sidearm, or simply the product of choice of a private citizen, you can trust that if it carries the SIG SAUER name it is built to our precise exacting standards, and undergoes the same rigorous quality controls to ensure that it performs when it matters most.

THE EVOLUTION OF SIG SAUER®

From Wagons to Worldwide Leader

When business entrepreneurs Friedrich Peyer Im Hof, Heinrich Moser, and Conrad Neher opened a wagon factory near the Rhine Falls in Switzerland in 1853, they laid the foundation for what would become the international leader in the small arms industry. Just seven years after constructing an industrial plant for building their wagons and railway cars, the three ambitious owners undertook a new venture responding to a challenge from Switzerland's Federal Ministry of Defense to develop a state-of-the-art rifle in hopes that the Swiss Army would adopt it.

Four years later, the trio found themselves facing an order for 30,000 of their rifles, and changed the name of their company to Swiss Industrial Group. The name was later shortened to SIG as they officially became one of the world's premier firearms manufacturers.

In the 1970's, the SIG small arms division expanded within Europe to include Hammerli Target Arms of Switzerland, and the legendary J.P. Sauer & Sohn, GmbH of Germany – one of Europe's oldest and most prestigious firearms manufacturers.

In the 1980's, SIG set its sights on the United States of America and opened its first American location in Virginia under the name SIGARMS®, and began importing and assembling the company's classic handguns.

In the 1990's, SIGARMS expanded its United States footprint by opening new manufacturing facilities in Exeter, New Hampshire where it would continue to expand to include the world-class SIGARMS training academy in Epping, New Hampshire.

In 2007, SIGARMS officially changed its name to SIG SAUER® aligning the company under a single global brand. Since then SIG SAUER has experienced unprecedented growth and expanded its New Hampshire footprint to include a 206,000 sq./ft. corporate headquarters and advanced manufacturing facility at Pease International Tradeport. SIG SAUER continually invests in workforce development by hiring the foremost industry experts in ever expanding and diversified product categories to ensure that all SIG SAUER products exceed the quality expectations that are synonymous with the brand.

Today, the SIG SAUER product lineup goes well beyond firearms to include a broad array of products such as electro-optics, ammunition, suppressors, and airguns, all designed, engineered, and manufactured to the same exacting standards of quality, reliability, and performance that have made SIG SAUER the brand of choice for the military, special forces, law enforcement, and civilians across the globe. In addition, SIG SAUER has expanded it's U.S operations with a dedicated optics facility in Oregon and a purpose-built ammunition plant in Arkansas.

SIG SAUER has evolved because we continually compete against ourselves, because we believe our greatest success has yet to be engineered, and we are driven by the knowledge that our customers can't afford to settle so they trust we never will. SIG SAUER. Never Settle.

SIG SAUER
NEVER SETTLE

U.S.DEFENSE CONTRACTS

U.S. Army M17/M18

After one of the most rigorous and highly competitive selection processes in the history of military firearms SIG SAUER was awarded the Modular Handgun System (MHS) contract for the full-size M17 and the compact M18 with the P320-based pistol platform.

DOD Suppressed Upper Receiver Group (SURG)

The SIG SAUER MCX system was selected to upgrade the existing M4A1 U. S. Special Operations Forces carbine and optimize military weapons for continuous suppressed use on the battlefield.

U.S. Army TANGO6T SDMR

SIG SAUER Electro-Optics TANGO6T 1-6x24 FFP riflescope was selected as the final component of the complete SDMR system for the U.S. Army's Squad Designated Marksmen.

DOD TANGO6T SOCOM

SIG SAUER Electro-Optics TANGO6T 1-6x24 SFP was selected for the U.S. Special Operations Forces Squad-Variable Powered Scope.

Department of Homeland Security (DHS)

After a rigorous down-selection process the SIG SAUER P320 Pistol was chosen as the official duty pistol for DHS Immigration and Customs Enforcement (ICE).

USCG SIG AIR Pro Force P229 Airsoft Pistol

SIG AIR will supply the U. S. Coast Guard with the SIG AIR Pro Force P229 airsoft pistol for training for their Cadets and Guardsmen.

INDUSTRY AND CONSUMER AWARDS

SIG SAUER® is proud to be honored by our peers and have our products recognized for innovation,quality and capability.

2018 GUNS & AMMO OF THE YEAR

Recognizing new product with demonstrated quality and reliability that appeals to the masses.

Handgun of the Year: P365 high-capacity, micro-compact pistol
Innovation of the Year: SIG SAUER Electro-Optics Ballistic Data Xchange (BDX) Rangefinder, Riflescope, and App System

2018 INDUSTRY CHOICE AWARDS

Recognizing fit, form, finish, and functionality in firearms by industry peers.

Handgun of the Year: P365 high-capacity, micro-compact pistol
Rifle Caliber Pistol of the Year: MCX Rattler 300BLK

2018 OUTDOOR LIFE AWARDS

Recognizing versatility in riflescopes.

Editor's Choice, Riflescopes: SIERRA3BDX
Editor's Choice, Great Buy: SIERRA3BDX

2018 GOLDEN TRIGGR AWARDS

Recognizing innovation in the firearms industry.

Innovation in Firearms: P365 high-capacity, micro-compact pistol
Innovation in Optics: SIG SAUER Electro-Optics Ballistic Data Xchange (BDX) Rangefinder, Riflescope, and App System

2018 BALLISTICS BEST

Recognizing superiority in class and significant product development.

Compact Semi-Automatic, Editor's Choice: P365 high-capacity, micro-compact pistol
Full-Size Semi-Automatic, Reader's Choice: P320 XCARRY Pistol
Semi-Automatic Rifle, Reader's Choice: MCX VIRTUS SBR

2018 NASGW LEADERSHIP AWARD

Recognizing members of the National Association of Sporting Goods Wholesalers that exemplify a commitment to distribution in the industry.

SIG SAUER, Inc. named **"Innovator of the Year"**

2018 NASGW-POMA CALIBER AWARD

Recognizing new and innovative products within the sporting goods industry.

Best New Optic: SIG SAUER Electro-Optics Ballistic Data Xchange (BDX) Rangefinders, Riflescopes, and App System
Best Overall Product: P365 high-capacity, micro-compact pistol

SPORTING CLASSICS 2018 SPECIAL EDITOR'S AWARD OF EXCELLENCE

Awarded to SIG SAUER for the brand's broad capabilities and diverse product offering for sportsmen.

SIG SAUER
NEVER SETTLE

PISTOLS

PISTOLS

Choose from a full array of sizes, triggers, calibers, finishes, and features—all with unfailing SIG reliability and accuracy.

sigsauer.com

INSPIRED BY THE ELITE PROFESSIONAL. CARRIED BY ALL WHO DEMAND THE BEST.

Unless it's a SIG, a handgun is just a handgun. Engineered to perform anywhere, at any time, and under any circumstance, SIG pistols boast unique, advanced features that stand out among the rest. Key features include:

X-RAY3™ Sights

Integral Accessory Rail

4-Point Safety System

Nitron® Stainless Steel Slide

SAS® (SIG ANTI-SNAG)

Threaded Barrels

Rear Sight Plate

ROMEO1™ Reflex Sight

SIZING UP YOUR SITUATION

You want a pistol with frame dimensions directly suited to your needs. Whether you'll be sliding your handgun into a range bag, concealing it in a purse, shooting competitively, or defending your home, SIG SAUER offers a pistol for every shooter.

FULL-SIZE

When shootability and sighted accuracy are a must. Generous dimensions and even weight distribution help to deliver a more accurate sight picture and reduced felt recoil.

Barrel **> 4"** Frame **> 7.5 x 5.5"**

CARRY

A balance of shootability with concealment. A full-size grip allows the shooter more control while reduced slide length offers lighter carry.

Barrel **~ 4"** Frame **7 x 5.5"**

COMPACT

If concealment is an essential requirement, the reduced slide length and grip height enable easy concealment and carry, with ergonomics designed to promote point-and-shoot accuracy.

Barrel **< 4"** Frame **~ 7 x 5"**

MICRO-COMPACT

Discreet, lightweight, and able to fit almost anywhere. Often called "pocket pistols," the SIG micro-compacts deliver the ultimate in concealment.

Barrel **< 3.5"** Frame **< 5.8 x 4.3"**

TRIGGER TIME

Any expert will tell you, it's the trigger that ultimately puts rounds on target. Weigh the pros and cons of each trigger carefully to select the one you can fire accurately, and carry with confidence.

STRIKER-FIRED TRIGGER

STR | Short Tactile Reset

Every trigger pull has the same weight and feel with a quick tactile reset to ensure faster and more consistent shots.

HAMMER-FIRED TRIGGERS

DA/SA | Double-Action/Single-Action

The first trigger pull performs the double-action of cocking the hammer and then releasing the sear. Followed by lighter, single action trigger pulls on all subsequent shots. The heavier first trigger pull acts to reduce inadvertent discharges.

SAO | Single-Action-Only

The trigger performs the single-action of releasing the hammer with a consistent trigger pull that is generally regarded as the shortest, lightest, and smoothest available. The slide can still be operated with the safety engaged (a SIG exclusive). All models feature a manual thumb safety.

THE CALIBER DEBATE

Popular opinions vary widely, but only you can select the right caliber for you. Consider bullet weight and velocity, your desired magazine capacity, ammunition cost, and availability.

.45AUTO
Known for a combination of power and controlled penetration, due to a large diameter bullet and moderate velocities.

10MM
Offers higher velocity, greater range, and more kinetic energy than the .45AUTO.

.40S&W
Designed to match the performance of the FBI's reduced-velocity 10mm in a smaller cartridge size while offering an energy advantage over the 9mm..

.357SIG
Developed in 1994 to duplicate the performance of a 125 gr .357 Magnum cartridge. The .357SIG combines relatively high velocity with remarkably flat trajectory.

9MM
Regarded as the world's most popular and widely used handgun cartridge combining a flat trajectory with relatively low felt recoil.

.380ACP
Compact and light design make it popular in handguns designed for concealed carry. Less powerful than larger calibers minimizing recoil and improving controllability.

.22LR
Among the lightest and most affordable rounds in handguns the .22LR is ideal for target shooting and training.

P220®

CLASSIC FULL-SIZE PISTOL

The original SIG SAUER® pistol that started it all—a Classic. This .45AUTO pistol is now available in 10mm.

Max Michel - Capt. Team SIG

"The P320® XFIVE is the perfect platform for the action shooting sports. The versatility, durability, and accuracy of this pistol are the features I appreciate most. With its smooth trigger, soft recoil impulse, and longer sight radius the P320 XFIVE is extremely easy to shoot. When I step up to the range to compete with my P320 XFIVE I know I have the best equipment possible to get the job done, and bring home a win for Team SIG."

- Max Michel, Team SIG Captain

P365®

LEGION
For thousands of years, one symbol has been a rallying cry for the world's most revered warriors. And for decades, one brand of firearms has served more elite fighting forces than any other.
WELCOME TO THE LEGION BY SIG SAUER® Painstakingly engineered and enhanced for the discerning few with the same warrior spirit that inspired it. We have always given professionals what they need. Now, we are giving them what they want.
LEGION SERIES
sigsauer.com

UNLEASH THE WARRIOR SPIRIT.

The SIG P220®, P226®, P229®, P938®, P238®; five of the most highly regarded firearms in the professional community are receiving the Legion Series enhancements based on the needs and wants of elite users. For those who demand the best, we now have something even better — welcome to the Legion.

LEGION ENHANCEMENTS

1 | **Legion Gray Finish**
Enhances durability & lubricity

2 | **Solid Steel Guide Rod**
Reduces muzzle flip

3 | **Checkering Under Trigger Guard**
Minimizes lateral movement

4 | **X5 Undercut**
Accommodates high grip techniques

5 | **Grayguns Inc. Designed Trigger**
Adjustable for over travel

6 | **Reduced Profile Controls**
Prevents premature activation of slide stop with improved texture for better control

7 | **Three Magazines**
Delivers more value

8 | **Elite Beavertail Reduction**
Reduces printing when concealed

9 | **Enhanced Polished Action with SRT**
Smoother DA trigger press that enables faster follow-up shots

10 | **Front Cocking Serrations**
For easy slide operation

11 | **Custom G10 Grips**
Provides enhanced control for high grip techniques

12 | **X-RAY3™ Sights**
Optimizes sight acquisition in all lighting conditions

13 | **Enhanced Front Strap Checkering**
Provides a more secure grip for better control

14 | **Extended Magwell**
Provides a larger flared opening for faster reloading

15 | **Flat Aluminum Trigger**
Increased mechanical advantage for a lighter trigger pull

- External Microphones for "Talk-Thru" Capability

CUSTOM WORKS

CUSTOM WORKS PERSONALIZED CUSTOM-BUILT FIREARMS

From the very beginning SIG SAUER® has defined quality and reliability in firearms. Today, SIG Custom Works is creating unique firearms that redefine the standard for precision engineering and design excellence.

One of the first projects undertaken by SIG Custom Works was the development of the custom M17 pistols for the U.S. Army's, 3d U.S. Infantry Regiment, otherwise known as the "Old Guard." Four, historic ceremonial M17 Tomb of the Unknown Pistols were created by SIG Custom Works for the Sentinels who tirelessly guard the Tomb of the Unknowns at Arlington National Cemetery.

Each of the four pistols bears the name of Silence, Respect, Dignity, or Perseverance. Dignity and Perseverance represent the "Sentinel's Creed," and Silence and Respect represent the request to the public when visiting the Tomb of the Unknowns, and during the Changing of the Guard. Additionally, each of these pistols has been hand-crafted using historic materials that have been repurposed and worked into their design as a tribute to the men and women of the "Old Guard."

On October 11, 2018, SIG SAUER presented the four ceremonial M17 Tomb of the Unknown Pistols to the 3d U.S. Infantry Regiment, in a private ceremony at Arlington National Cemetery.

SIG CUSTOM WORKS

The mission of SIG Custom Works is to deliver personalized design, elite performance, and uncompromising craftsmanship.

EXPERIENCE: From the fit and finish, to the way each product is packaged and delivered, SIG Custom Works creates a truly special experience for our customers.

INNOVATION: Take your firearm to the next level with state-of-the-art designs, new processes, and performance enhancements by SIG Custom Works.

QUALITY: Every SIG Custom Works pistols is built to exacting standards by the SIG SAUER craftsmen who are driven by their uncompromising standards for excellence.

RELATIONSHIPS: Receive a personalized experience at SIG Custom Works that results in a firearm to fit your personal style and specifications.

For more information on SIG Custom Works services visit sigsauer.com

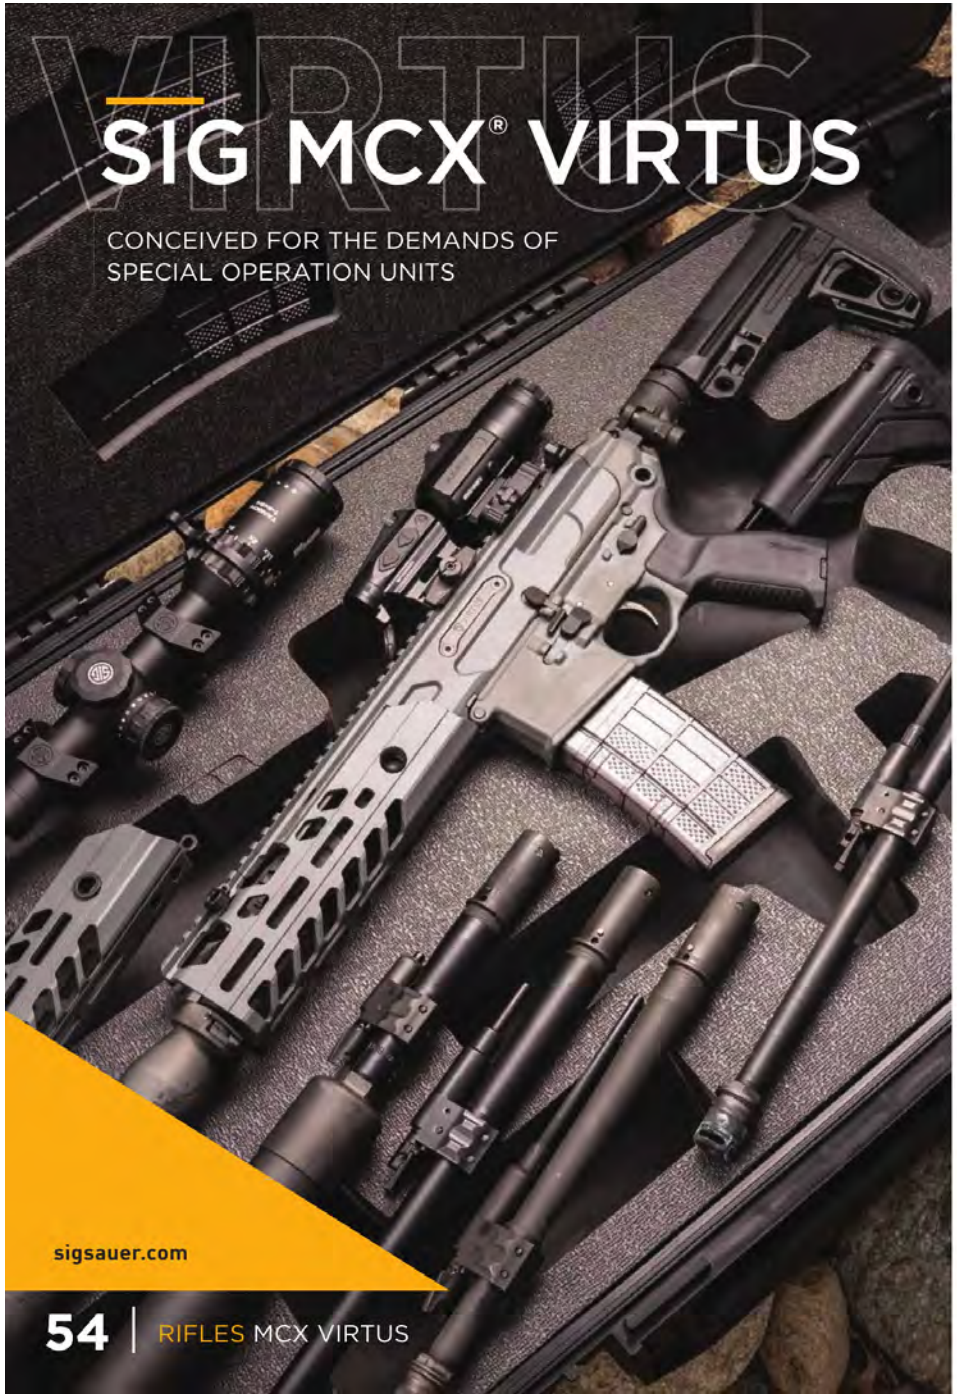

RIFLES

THE FIRST TRUE MISSION-ADAPTABLE WEAPONS SYSTEM, USED BY THE MOST ELITE MILITARY UNITS IN THE WORLD.

Your mission awaits. The next level in modularity and performance is here. Configurable in more than 500 combinations, the ground-breaking and modular SIG MCX® VIRTUS is ready for any mission. Engineered for unmatched reliability, the MCX VIRTUS is designed to perform beyond 20,000 rounds without the need for replacement parts.

The MCX VIRTUS is built with the highest quality components, and is the apex predator of the carbine world. The MCX VIRTUS features: the new SIG MATCHLITE Duo trigger for a crisp, clean feel; free-float M-LOK™ handguards available in four lengths; ambidextrous, AR-style controls; a folding collapsible stock; and is available in Stealth Gray and FDE.

Lena Miculek - Team SIG

"When it comes to my competition equipment I want a rifle that's reliable, accurate, and easy to shoot, and the SIG MPX checks all the boxes. The light recoil and smooth trigger of the SIG MPX allows me to move easily between stages during competition, and these features, combined with the quietness of the rifle, make it perfect for training new shooters also. I have been competing for nearly three years with my SIG MPX and I have seen improved speed, greater accuracy, and elevated my competition to an entirely new level. Hands down the SIG MPX is my favorite firearm to plink, train, and compete with."

04
Flip-Up, Back-Up Locking Iron Sights
Compatible with picatinny rail systems. Tool-less windage and elevation adjustment. Button-less flip up and locks in position.

05
Ambi Charging Handle
Optimized for right or left-hand operation. Solid construction for prolonged use, and built for maintenance free reliability

07
Flat Blade Single-Stage Trigger
Vertical trigger profile for a precise feel, and crisp break for maximum performance.

For a complete list of TREAD series accessories offered by SIG SAUER, please vist sigsauer.com/TREAD.

SIGM400®

DIRECT IMPINGEMENT AR PLATFORM

Designed for elite forces and refined by the world's best professional shooters to be the ultimate AR performance rifle.

- SIG MATCHLITE® Duo Coyote-Tan Flat Blade Trigger
- 3-Chamber Conpensator
- Flaired Magwell
- Ambidextrious Controls Including Bolt Catch and Release
- Adjustable Gas Block with Mid-Length Gas System

Daniel Horner - Team SIG

"The SIG M400 Comp is the first rifle I've e shot that is ready to go right out of the box for 3-Gun competition. The lightweight fluted stainless barrel, 2-stage match trigger, and precision adjustable stock gives me the absolute best performance to compete at the highest level without any modifications. The engineers at SIG SAUER have also added features that make this a standout competition rifle including the ambi bolt catch release and flared magwell which help to increase my speed and get back on target. When it comes to long-gun there is no better rifle to take me from the store to the range, and be 100% competition ready, than the SIG M400."

- Daniel Horner, Team SIG Pro Shooter

JACKETED HOLLOW POINT PISTOL CARTRIDGES

SIG V-Crown defensive rounds combine perfected material specifications and fine-tuned design innovations. Featuring a stacked hollow point cavity, to deliver exceptional on-target energy, with maximum weight retention and optimal expansion for the ultimate in stopping power. SIG V-Crown marked with an (*) is optimized for maximum terminal ballistic performance when used in short-barreled firearms.

SIG V-CROWN BALLISTIC FEATURES

Innovative SIG V-Crown cartridges utilize proven engineering design features, from low-flash propellant to a cannellure shank, resulting in maximum weight retention with reliable terminal ballistic performance.

ELITE 365 AMMUNITION

PISTOL CARTRIDGES

An Elite Performance ammunition designed for short barrel, concealed carry pistols, such as its namesake - the revolutionary P365 Everyday Carry high-capacity, micro-compact pistol. Available in Full Metal Jacket (FMJ) and V-Crown, SIG 365 ammunition uses low-flash, clean burning powders for maximum performance, shootability, and reduced recoil.

ELITE CARRY 365

JHP 9MM
E9MMA1-365-20

M17 AMMUNITION

PISTOL CARTRIDGES

The high-performance M17 9mm +P ammunition is military-grade ammunition available in 124gr SIG Elite M17 V-Crown Jacketed Hollow Point (JHP) personal defense loads, and SIG Elite M17 Full Metal Jacket (FMJ) training loads. SIG M17 ammunition is specifically engineered for exceptional performance in any 9mm +P rated pistol, including the SIG P320 M17. SIG M17 FMJ training ammunition is engineered to match SIG M17 V-Crown ballistics for a more seamless transition from training to carry ammunition and features durable, copper jacketed bullets offering the perfect combination of affordability and performance.

ELITE MATCH

PRECISION MATCH GRADE RIFLE CARTRIDGES

SIG Match Grade rifle rounds are engineered to excel in today's precision auto-loading platforms, as well as bolt-action rifles. Utilizing optimized shell case metallurgy and premium primers, each round is precision-loaded using state-of-the-art, electromechanical monitoring for geometric conformity, and all are 100% inspected.

SIG ELITE MATCH

E223M1-20 / E300A1-20 / E300A2-20 / E308M1-20 / E308M2-20 / E3WMM1-20 / E65CM1-20

- Minimal Velocity Variation
- Precision Loaded for Conformity
- Renowned Sierra Matchking® Projectile
- Temperature-Stable Propellants

MATCH ELITE

COMPETITIVE PISTOL CARTRIDGES

SIG Match Elite Competition loads have been designed for the serious competitive shooter who needs an accurate and completely reliable competitive round. Currently offered in a 9mm, 147 grain V-Crown projectile and loaded in a premium nickel case for improved function and feeding. The round utilizes a reduced charge weight with a fast burning powder, so felt recoil has been reduced significantly. Improved accuracy, less recoil for better gun control, equals higher scores!

NEW

SIG ELITE MATCH9

JHP 9MM
E9MMA3-COMP-50

- Same Great Features of Existing 9MM V-Crown
- Extremely Precise Power Factor Between 126 and 132*
- Legal for all USPFA Competitions
- Lower Felt Recoil
- Faster Target Acquisition
- Increased Accuracy
- Used by Team SIG Pro Shooters

9MM LUGER
147 grain

ELITE HUNTING

TIPPED VARMINT & PREDATOR RIFLE CARTRIDGES

SIG Tipped Varmint & Predator rounds utilize yellow tipped projectiles designed specifically for explosive expansion and unmatched accuracy. All loads feature projectiles yielding higher muzzle velocities and flatter trajectories across all practical hunting distances.

SIG VARMINT & PREDATOR

E223V1-20 / E225V1-20 / E243V1-20

- Match Grade Accuracy
- Flat Trajectories
- Explosive Fragmentation on Small Game

The Tipped Varmint and Predator rounds contain the same high quality single base extruded powders as SIG Match Grade rounds. This ensures consistent round-to-round muzzle velocities and renders it insensitive to temperature change. All SIG Varmint and Predator rounds are produced on state-of-the-art loading equipment utilizing laser technology for charge weight consistency and geometric conformity.

ELITE HUNTING

COPPER GAME HUNTING CARTRIDGES

SIG ELITE COPPER HUNTING rounds use premium-quality powders and primers for minimum velocity variation, and yield a 1.8x diameter expansion. Perfected for easy rifle feeding, with an optimized nose geometry, and premium nickel-plated shell casings that deliver consistently reliable accuracy for taking down game.

SIG COPPER HUNTING

E223H1-20 / E308H1-20 / E300H1-20 / E65CH1-20/ E3WMH1-20 / E300H2-20

- Easy Rifle Feeding
- Consistent 1.8X Diameter Expansion
- Minimal Velocity Variation
- Lead-Free Monolithic Copper Bullet
- California Fish and Game Code Section 3004.5 Compliant

COMPONENTS

BAGGED BRASS/ PRIMED BAGGED BRASS

Elite Performance Ammunition shell cases are engineered to exacting tolerances and available for multiple pistol and rifle calibers. The geometric consistency of these premium brass cases ensures each primer is held tightly in its pocket. Flash holes are precise with no burrs and the superior metallurgical properties of the SIG SAUER cases enable repeated reloading. All Elite Performance rifle shell cases are induction annealed for consistent bullet retention.

sigsauer.com

SIG SAUER® ELECTRO-OPTIC **INFINITE** GUARANTEE*

- Unlimited Lifetime Guarantee
- Fully Transferable
- No Warranty Card Required
- No Receipt Required
- No Time Limit Applies
- No Charge

ELECTRONIC AND TRITIUM LIMITED **5-YEAR** WARRANTY

Covers any defects in materials and workmanship in the electronic and tritium components of illuminated riflescopes/sights, pistol sights, electronic sights, flashlights, lasers, binoculars, spotting scopes and rangefinders for five years from the date of manufacture.

EMBEDDED APPLIED BALLISTICS

ABU Applied Ballistics Ultralight

Applied Ballistics Ultralight is the streamlined ballistic calculator developed with Applied Ballistics and integrated into all BDX products. Ballistic solutions are provided out to a maximum of 800 yards.

ABX Applied Ballistics External

Applied Ballistics external allows external devices such as Kestrels to compute Appled Ballistics Elite solutions and communicate the firing solution back to select BDX enabled devices.

ABS Applied Ballistics System

Applied Ballistics System embeds Applied Ballistics Elite onboard select products with integral environmental sensors to calculate complete ballistic solutions out to the effective range of any firearm.

SBT® SIG Ballistic Turret

- A Custom, Laser-Etched Elevation Dial on Most SIG SAUER® TANGO® and WHISKEY® Riflescopes
- Matched to the Ballistics of the Shooter's System at no Extra Cost
- Inputs Bullet Specifications, Ballistic Coefficient, Muzzle Velocity, Elevation, and Other Environmental Factors
- Allows for Correct Bullet Drop Compensation and Pinpoint Accuracy at Any Range

CUSTOM SBT DIAL

FREE ON MOST RIFLESCOPES, AVAILABLE FOR PURCHASE ON WHISKEY3 RIFLESCOPES

LOCKDOWN® Zero System

- Zero Stop-Locking Turret Allows a Rapid Return to Zero and Locks at Zero
- Eliminates Concern About How Far to Turn the Elevation Dial to Return to Zero

STEALTH ID™

- Deflection Armor Trapezoidal Surfacing Breaks Up the Shape and Visibility of the Optic
- Slide Serrations and Grip Checkering Add Function to the Form of all SIG SAUER Electro-Optics

HELLFIRE® Reticle

- Electronically Illuminated Utilizing an Advanced Fiber Optic Technology
- Varies the Light Intensity of the Central Aiming Point From night vision compatible to HellFire Bright for Daylight Illumination
- Results In a Bright, Defined Aiming Point for Precision Shot placement in any condition

LEVELPLEX™ Digital Anti-Cant System

- Utilizes an Integrated Digital Level that is Accurate to +/- 0.5° or +/- 1 Degree. Available in any WHISKEY5 or TANGO6 with side focus
- Also available on all SIERRA3BDX riflescopes with Auto LevelPlex mode that auto calibrates level sensitivity to distance ranged to target

MEGAVIEW™

- Provides Massive Field of View (FOV), Allowing Faster Target Acquisition
- Enhances Awareness of Objects in the Shooter's Periphery

ALT™ Aspheric Lens Technology

- Eliminates Aberration, Reduces Weight, and Helps to Focus the Projected Image Through the Lenses
- Superior Low Distortion Optical Performance

SPECTRACOAT®

- Highly Efficient, Ultra-Wide Broadband, Anti-Reflection Lens Coatings
- Reduces Surface Reflections to Extremely Low Levels Across the Entire Visible Spectrum
- Provides Superior Light Transmission

HDX® High Definition Transmittance

- Comprises Both High Definition (HD) and High Transmittance (HT) Glass
- Ultra-High Resolution, Optical Performance, and Light Transmission

LENSARMOR™

- Abrasion-Resistant Lens Coatings
- Extreme Durability Ensures the Lenses on the Scope Will Stay Sharp, Bright, and Clear

LENSHIELD™

- Mil-Spec Oleophobic Coating
- Sheds Water, Oil, and Gunk, Ensuring a Clean Sight Image at All Times

MOTAC™ Motion Activated Illumination

- Motion-Sensing Technology
- Powers Up Illumination When Sensing Motion, and Powers Down When it Does Not, Extending Battery Life

SOLAR POWERED ILLUMINATION

- Powered By a Solar Cell
- Extends Runtime and Improves Daylight Brightness of the Reticle With or Without a Battery

TRUHOLD™

- Lockless Zeroing System
- Utilizes Quad Adjustment Springs Designed and Torture-Tested to Endure Handgun Recoil and Return to Zero Shot After Shot

SOS™ SIG Optic Stabilizer

- Proprietary SIG Optic Stabilizer System
- Gyroscopically Stabilized to Cancel Out Unwanted Shaking and Vibrations that Can Blur an Image, Especially at Higher Magnification Levels

AMR™ Angle-Modified Range

- Ranging Technology Using an On-Board Inclinometer
- Reads Incline / Decline Angle and Modifies the Effective Ballistic Shooting Range to The Target
- Equivalent Horizontal Range, Integrating Perfectly When Used with SIG Ballistic Turret Dials

LIGHTWAVE DSP™ Digital Signal Processing

- Leverages HyperScan, and Advanced Power Management Technique, Providing the Fastest Refresh Rate in Scan Mode (4 times Per Second)
- Uses the Latest Generation Field Programmable Gate Array (FPGA)
- reduces false positives while finding weak or distant targets

LUMATIC DISPLAY™

- Proprietary OLED (Organic Light Emitting Diode) Display™
- Ambient Light Sensor Continuously Monitors Light Conditions and Adjusts the Display Brightness Accordingly
- No other Display Offers this Adaptive Ability to Prevent the Shooter's Pupil from Constricting in low-Light Conditions

90° POWERCAM™ MOUNT

- Quick Flip Away Mount for Fast Transitions from Near to Far Distance Targets
- No Button Actuator for Rapid Single Handed Operation

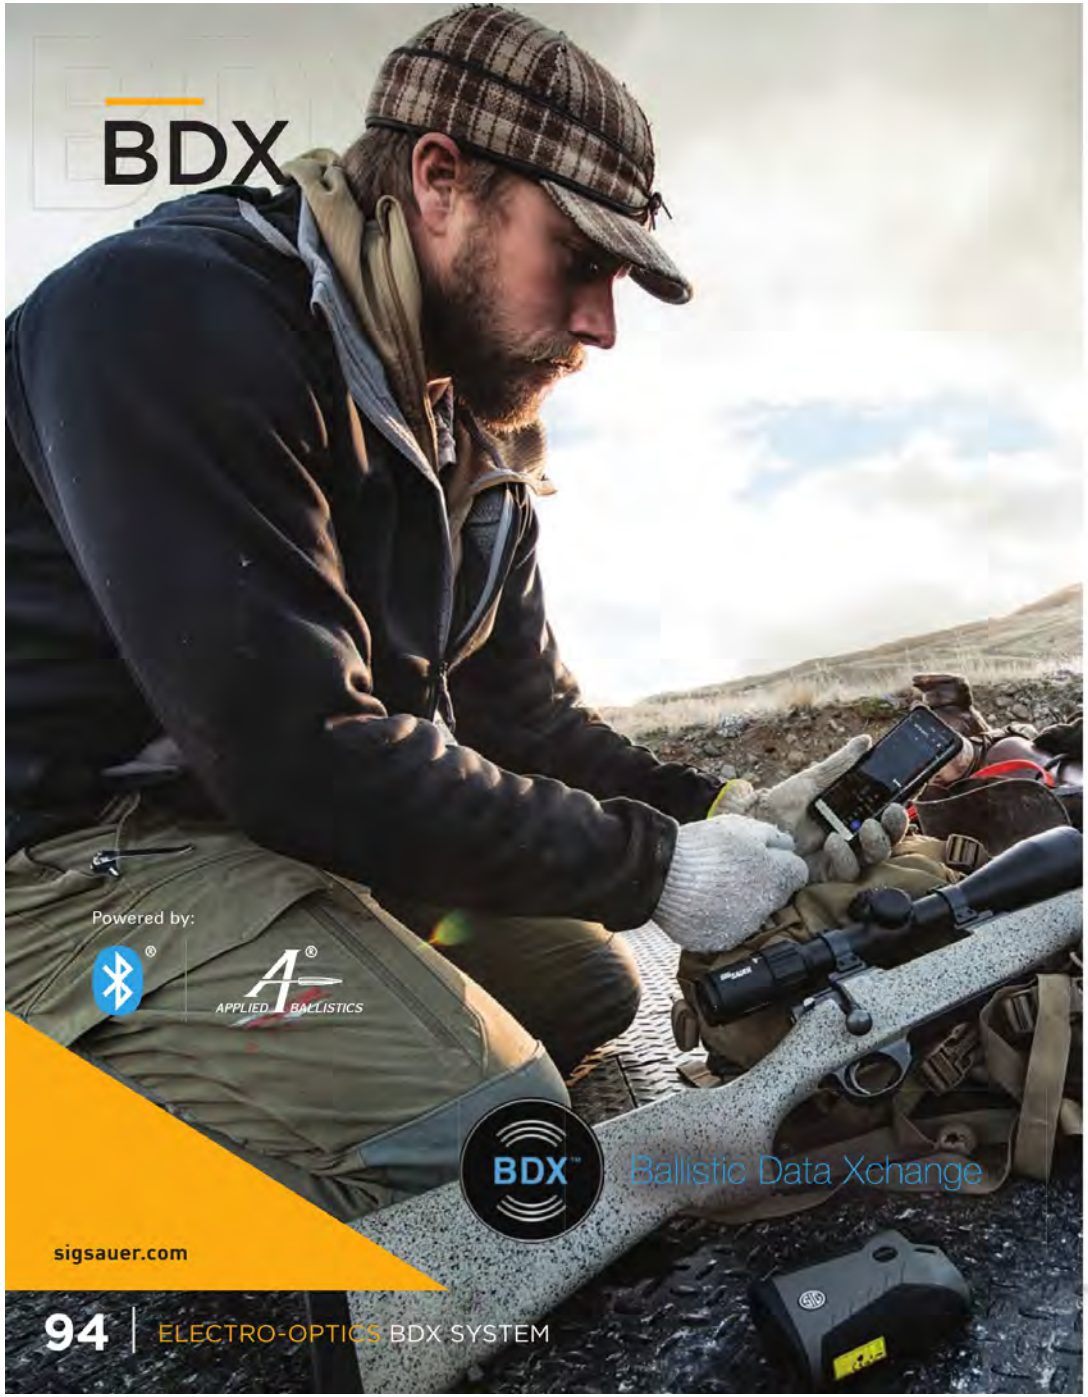

KinETHIC™ Kinetic Energy Indicator

- KinETHIC Kinetic Energy Indicator
- Allows a hunter to set a threshold in either ft-lbs or fps for the ethical harvest of game animals. BDX will compute distance ranged and indicate when you drop below the user-set threshold for energy or speed of bullet on target

sigsauer.com

BDX™
Ballistic Data Xchange

WHAT IS BDX?

The SIG SAUER® Ballistic Data Xchange (BDX) rangefinder, riflescope, and app has transformed hunting with its unprecedented simplicity and accuracy. KILO BDX rangefinders and SIERRA3BDX™ riflescopes combine the power of Applied Ballistics Data with Bluetooth technology alllowing you to get the most accurate and ethical shot.

BDX RANGEFINDER

The KILO BDX rangefinder gives you unprecedented capability in the palm of your hand. Simply set your ballistic profile in the SIG BDX app and when you range your target, the KILO BDX™ will automatically provide an elevation holdover and windage adjustment. Adjust accordingly and take your shot.

BDX RIFLESCOPE

The powerful SIERRA3BDX riflescope revolutionizes the art of holdover calculation. Again, set your ballistic profile in the SIG BDX app, sync the app with your SIERRA3BDX riflescope and then configure multiple holdover points in the digital ballistic reticle. When you view your target through the reticle each of your exact holdover points is illuminated. No more turrets to adjust or calculations to make.

BDX SYSTEMS

When used together KILO BDX rangefinders and SIERRA3BDX riflescopes combine to create the most advanced optics system available on the market today. Simply configure your ballistics profile in the BDX app, pair your KILO BDX rangefinder with the app and then bond it to your SIERRA3BDX riflescope. When you range your target the KILO BDX rangefinder automatically sends your specific holdover data to your SIERRA3BDX riflescope giving you an illuminated holdover dot. It's simple and fast.

SIERRA3™

RIFLESCOPES WITH BALLISTIC DATA XCHANGE

Disguised within the form factor of a traditional riflescope lies the power of the SIG SAUER BDX Ballistic Data Xchange. The SIERRA3BDX riflescope provides the hunter with an illuminated auto-holdover dot on targets when coupled with a BDX capable KILO rangefinder.

BDX™ Ballistic Data Xchange

NEW

SIERRA3BDX 6.5-20X52

30MM MAINTUBE
SOSBDX36111

- Provides Holdover Dot for Hunting out to 800 yards. (Unlimited when Coupled to an ABX/ABE Enabled Device).
- Digital Focal Plane BDX-R1 Reticle Subtensions Corrrect with Zoom
- Blue LED on Power Selector Indicates when Bluetooth is Paired to KILO BDX Rangefinder
- HD Glass and Coatings for the Best Optical Quality in its Class

Standard Features

- Integrated BDX Ballistic Data Xchange.
- Automatic Holdover dot on a Digital Focal Plane
- Innovative KinETHIC Kinetic Energy Transfer Indicator
- Dependable Waterproof and Fog-Proof Performance (IPX-7 for Complete Immersion up to 1 Meter)
- LevelPlex with Auto LevelPlex mode

KILO® BDX

BDX Ballistic Data Xchange

BDX BALLISTIC DATA XCHANGE LASER RANGEFINDERS

Featuring SIG SAUER's BDX technology, the KILO3000BDX is one of the world's most advanced laser rangefinders. When paired with a SIERRA3BDX riflescope, the onboard Applied Ballistics Ultralite calculator sends ballistic drop data via Bluetooth directly to the SIERRA3BDX's BDX-R1 reticle, providing an illuminated holdover dot and wind hold. Download the free BDX App for iOS or Android to setup ballistic profiles and synchronize custom profiles to your KILO for exact ballistic solutions.

new

KILO3000BDX BINOCULAR RANGEFINDER

10X42MM
SOK31001

- BDX™ Ballistic Data Xchange Capable, Providing your BDX Riflescope with an Automatic Illuminated Holdover Dot through Bluetooth Pairing
- Supports Applied Ballistics External for Pairing your KILO with a Kestrel with Onboard Applied Ballistics Elite™
- Revolutionary LightWave DSP™ Technology for the Fastest and Longest Distance Rangefinder Engine
- HyperScan™ Technology Provides 4 Range Updates Per Second in Scan Mode while RangeLock™ Reports the Last Range Result when Ranging Distant Targets
- Embedded Applied Ballistics Ultralite with Bullet Database and Support for G1/G7 Drag Curves
- Fully Multi-Coated ED Glass Lenses and Phase-Coated Prisms for High Resolution and High Contrast

Standard Features

- Will Range Up to 5,000 yards with Results Displayed to the Nearest 1/10th Yard
- Lumatic OLED Display™, Continuously Monitors Light Conditions & Adjusts the Display Brightness Accordingly
- Multi-Position Twist-Up Eyecups Provides a Custom Fit for Each User
- Compact, Lightweight Aluminum Housing with Dual Diopter Adjustment
- User Selectable Target Modes Featuring LAST or BEST Mode for Pinpoint Accuracy
- Powered by a Lithium CR2 Battery
- FOV = 32 ft/100 Yards / 6.1 Degrees

RANGEFINDERS

sigsauer.com

KILO®

DIGITAL BALLISTIC LASER RANGEFINDERS

The KILO family of Digital Laser Rangefinders is engineered for extreme accuracy. KILO products are the most advanced and yet simple to use rangefinders on the market today. Updating at 4x per second in HyperScan mode, all KILO rangefinders come with proprietary LightWave™ DSP technology, are lightning fast, and amazingly accurate.

OUTDOOR LIFE EDITOR'S CHOICE

KILO2400ABS RANGEFINDER

7X25MM
SOK24701

- Ranges up to 2 miles with the Revolutionary LIGHTWAVE DSP™ Technology for the Fastest and Longest Distance Rangefinder Engine
- Advanced Rangefinder Featuring an Embedded Applied Ballistics Elite Calculator and Bluetooth for Synchronizing with a Free Applied Ballistics App. Available on Both IOS and Android Platforms
- Integrated Temperature, Humidity, Pressure, and Compass
- New Milling Reticle with 2.4 MRAD Inner Diameter and 3 MRAD Outer Diameter Center Aiming Circle. Milling Features are 5 MRAD to the Dots and 10 MRAD to the Lines.
- Includes a Tripod Adapter, Smartphone Jack WindMETER, Ballistic Nylon Mole Kit Bag, Nylon Carry Pouch, Tactical Pen/Stylus, Lanyard, and 3 Spare Batteries

Standard Features

- Will Range up to 3400 yards with Results Displayed to the Nearest 1/10th Yard
- Lumatic OLED Display™, Continuously Monitors Light Conditions & Adjusts the Display Brightness Accordingly
- Multi-Position, Twist-Up Eyecup Provides a Custom Fit for Each User
- Compact, Lightweight Magnesium Housing with Diopter Adjustment
- User Selectable Target Modes Featuring LAST or BEST for Pinpoint Accuracy
- Powered by a Lithium CR2 Battery

KILO2400ABS syncs with a smart phone via the Applied Ballistic's Ballistic Solver app. Calculating long-range rifle trajectories for the perfect shot. (Smart phone app display shown.)

LIGHTWAVE DSP (Digital Signal Processing) engine leverages HyperScan–an advanced power management technique that provides the fastest refresh rate in scan mode (4 times per second) even at distances over a mile.

Angle Modified Range, AMR is advanced ranging technology using an onboard inclinometer that reads incline/decline angle and modifies the effective ballistic shooting range to the target.

Includes free app for Android & iOS,.one-piece, solid-machined, tripod mount, TYR water resistant molle gear bag, wind meter, tactical pen/stylus, lanyard, and 3 batteries.

Up to 600 YDS DEER

5x30MM
SOB53101 / SOB53102

- Designed for Traditional / Dangerous Game Hunting and MSR/AR Platforms
- Short, Medium, and Long Range Engagements and Recreational Shooting Across a Wide Range of Calibers and Light Conditions

BINOCULARS AND SPOTTING SCOPES

sigsauer.com

ZULU®

BINOCULARS

Next to a zeroed rifle, a clear and bright pair of binoculars is the best piece of gear to have on hand. ZULU binoculars perform in the harshest conditions, giving unmatched performance in inclement weather or rugged terrain.

ZULU9™ ABBE-KOENIG PRISM

9x45 / 11x45 / 15x56

SOZ99001 / SOZ99002 / SOZ99003

- Combines Superior Optical Performance with In-the-Field Utility
- High Quality Glass, Fully Multi-Coated Spectracoat™ Lenses
- Phase-Coated Abbe-Koenig Prisms Provide Maximum Brightness, Contrast and Crisp Resolution
- Performs in the Harshest Conditions, Giving Unmatched Performance in Inclement Weather or Rugged Terrain
- Superior Low Light Performance

Standard Features

- Combines Superior Optical Performance with In-the-Field Utility
- High Quality Glass, Fully Multi-Coated Spectracoat™ Lenses
- Phase-Coated Abbe-Koenig Prisms Provide Maximum Brightness, Contrast and Crisp Resolution
- Performs in the Harshest Conditions, Giving Unmatched Performance in Inclement Weather or Rugged Terrain
- Superior Low Light Performance

ZULU7™ HDX OPEN-BRIDGE

8x42mm HDX SOZ78001 / 10x42mm HDX SOZ71001 / 12x50mm HDX SOZ71201

- Multi-Position Twist-Up Eyecups Provide a Custom Fit for Each User
- Fully Multi-Coated Roof Prism Binocular Incorporates Super High Reflectance Phase-Coated BAK4 Prisms for Unmatched Resolution and Image Contrast
- Field & Stream Best of the Best Winner 2016

The Abbe-Koenig prism system eliminates the mirrors used in conventional roof prism binoculars. Using Total Internal Reflection (TIR) for all reflections inside the prism, the ZULU9 provides 8-15% higher light transmission than a standard roof prism design.

Advanced optical systems comprising both High Definition (HD) and High Transmittance (HT) glass

ZULU5™ HD OPEN-BRIDGE

8x42mm HD SOZ52081 / 10x42mm HD SOZ52101 / 12x50mm HD SOZ52121

- HD Glass for Superior Clarity and Color Correctness
- Silver Deposition Phase-Coated BAK4 Prisms
- Lightweight and Durable Magnesium Alloy Body

ZULU3™ COMPACT OPEN-BRIDGE

8x32mm SOZ38001 / 10x32mm SOZ31001

- Our Low Dispersion Glass Offers Maximized Clarity and Color
- Uniquely Compact, Can Easily be Held for Extended Periods
- Rugged Polymer Frame and Non-Slip Rubber Armor

OSCAR®

IMAGE STABILIZED MINI SPOTTING SCOPE

The revolutionary OSCAR3 mini spotting scope features advanced electronic image stabilization technology that fits in the palm of a hand — no tripod required.

OSCAR3™

10-20X30MM
SOV31001

- Advanced Electronic Image Stabilization Technology that Fits in the Palm of a Hand
- Proprietary SOS System is Gyroscopically Stabilized, and Cancels Out Unwanted Shaking and Vibrations
- Ideal for Backpacking, Hunting, Wildlife and Sports Observation, Law Enforcement, and Military Reconnaissance
- SOS™ (SIG Optic Stabilizer): Stabilizes the Image and Virtually Eliminates a Shaky Image
- The Small Size and Ranging Capability of the OSCAR3 is Ideal for Backpacking, Spot/Stalk and Tree Stand Archery, or Long Range Rifle Hunting in Open Country or Mountains as well as Concealed Viewing Situations for LE or Military Use

LIGHTS AND LASERS

LIMA®

LASER SIGHTS

The most advanced red or green lasers on the market, the proprietary LIMA Laser Grip Module and low-profile LIMA Laser light integrate seamlessly with you SIG SAUER® pistol.

new

LIMA365
RED/GREEN LASER

PISTOL LASER
SOL36501 / SOL36502

- Ideal for Target Shooting, Conceal Carry and Personal Defense
- Designed to perfectly fuse against the SIG P365 trigger guard for seamless fit
- Powered by Lithium 1/3N Battery
- Instant Activation Tact Switch
- Shown with P365 Pistol, (Not Included)

Standard Features

- Latest Generation 5 MW Red or Green Lasers for Unmatched Runtime
- Ambidextrous Laser Activation Supports All Grip Types
- Windage and Elevation adjustments

LIMA320
LASER GRIP

RED/GREEN LASER
SOL51001 / SOL51002

- Integrates and Fits Perfectly with our P320® and P250® Pistol Platforms
- State-of-the-Art Laser Targeting in a Package that is Stealth and Virtually Invisible to the Operator
- Same Material as SIG SAUER Standard Polymer Frames and Textured to Match
- Seamlessly Integrates Either a Red (Oclaro) or Direct Green (Osram) High Quality and High Efficiency Laser Module for Extreme Accuracy
- Powered by a Bottom Mounted Lithium 1/3N Battery in the Palm Swell
- Works with Carry, Compact and Full Size
- Instant Activation Tact Switch
- Shown with P320 Slide, Magazine,and Trigger Group, (Not Included)

LIMA38
RED LASER

PISTOL LASER
SOL13801

- Ideal for Target Shooting, Conceal Carry and Personal Defense
- Precision Engineered to fit SIG P238 and P938 Pistols, Including Rubber Grip Variants
- Powered by Lithium 1/3N Battery
- Dual-sided Switch Supports Ambidextrous Operation
- Momentary or Continuous Activation with 5 Minute Auto-Timeout Shown with P238 Pistol, (Not Included)

FOXTROT®

WEAPON MOUNTED LIGHTS

The FOXTROT series of pistol lights provides bright, crisp, white light and comes ready to mount on your SIG SAUER® pistol.

new

FOXTROT365

WEAPON MOUNTED LIGHT
SOF36501

- Ideal for Law Enforcement, Conceal Carry and Personal Defense
- Designed to perfectly fuse with the SIG P365 trigger Guard for a Seamless fit
- Latest Generation Cree LEDs for Maximum Brightness and Runtime
- Up to 100 Lumens and 3 Hour Run Time
- Instant Activation Tact Switch
- Powered by lithium 1/3N batteries
- Shown with P365 Pistol (Not Included)

FOXTROT1

WEAPON MOUNTED LIGHT
SOF11001

- Ideal for Home Defense, Law Enforcement or Military Applications
- Mounts to any Picatinny 1913 or SIG SAUER Proprietary Rails
- White LED Runs for Over Two Hours at 200 Lumens on a CR123 Battery
- Dual, Finger-Actuated Tact Switches Support Ambidextrous use
- Latest Generation Cree LEDs for Maximum Brightness and Runtime
- User-Selectable Output from 100 / 200 / 300 Lumens
- Ambidextrous Tact Switches for Easy Finger Actuation
- Momentary or Continuous On with 5 Minute Auto-Timeout
- Battery Changed Through the LED Bezel with Quarter Turn Lockout
- Dependable Waterproof (IPX-7 Rated for Complete Water Immersion up to 1 meter) and Fog-Proof Performance

X-RAY®

ENHANCED DAY/NIGHT SIGHTS

The X-RAY family of pistol sights make target acquisition intuitive and fast in any lighting condition. The high contrast front sights paired with the glare reducing rear sights keep your focus on the front sight. The X-RAY1 front sight combines a durable light pipe with a photoluminescent ring providing a bright dot in daylight and a glowing ring that will see you through the dusk transition. The X-RAY3 line uses a 3-dot tritium system for the most demanding low light environments.

X-RAY3 ENHANCED DAY/NIGHT SIGHTS

PISTOL SIGHTS

SOX10001 (SQUARE) / SOX10002 (ROUND U) / SOX10003 (SQUARE) / SOX10004 (ROUND U)
SOX10005 (SQUARE) / SOX10006 (ROUND U) / SOX10007 (SQUARE) / SOX10008 (ROUND U)
SOX10009 (SUPPRESSOR HEIGHT)

- With a half-life of 12 years, the 3-Dot tritium system allows for fast target acquisition in low-light conditions
- Oversized chemical resistant fluorescent polymer front dot provides confidence in all environments
- X-RAY3 come in SIG SAUER® sizes of #6 and #8, Square or Round (U) notched rear sight

X-RAY1 SIGHT SET

PISTOL SIGHTS

SOX11011 (GREEN) / SOX11012 (GREEN) / SOX11013 (GREEN) / SOX11014 (GREEN)
SOX11015 (RED) / SOX11016 (RED) / SOX11017 (RED) / SOX11018 (RED)

- Three Dot Fiber Optic Sights for Fast Target Acquisition
- Luminescent Front Sight Ring Glows in the Dark for up to 1 Hour
- Available in Red or Green Light Pipe
- Round (U) Notch Sight

Standard Features

- Oversized Chemical-Resistant Fluorescent Polymer Front Dot Sight Gives Confidence in any Environment
- Torture Tested to 20,000 Rounds, the Steel Housing Provides a Tough, Reliable Sight that Lasts as Long as the Firearm
- Rear Sights come in Standard SIG SAUER® sizes of #6 and #8
- Fits SIG SAUER P238®, P938®, P250®, P320® and Classic Line Models

SUPPRESSORS

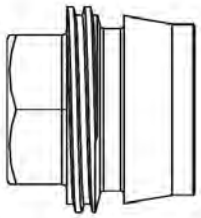

SUPPRESSORS

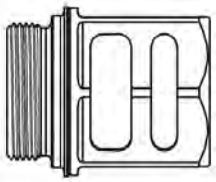

WELCOME TO THE FUTURE OF SILENCE.

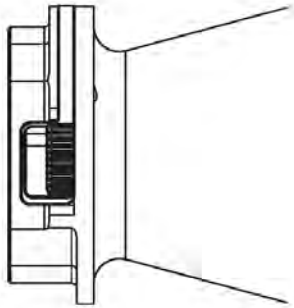

SIG SAUER engineers have developed the next generation of suppressors. With decades of product design and R&D experience under our belts suppressors are not treated as bolt-on accessories. At SIG it is understood that suppressors interact with your firearms system and can affect accuracy, reliability, back pressure, and other critical factors. We design our suppressors to be part of a completely integrated system to maximize overall performance, and as a result we build the most advanced, most dependable suppressors the world has ever seen, or heard.

sigsauer.com

ALIGNMENT

TAPER-LOK® MOUNT

- Innovative Tapers Self-Center the Suppressor Bore and Rifle Bore, Greatly Reducing Point-of-Impact Shift and Group Dispersion
- A Larger Contact Area Maximizes Retention During Repeated Firing, Requiring Approximately 20% More Force to Remove than it did to Install
- Taper-Lok Mounts are Available in Multiple Thread Pitches and Calibers
- SIG SAUER Tapered Rifle Barrels are Backwards Compatible with Legacy Suppressors and Muzzle Devices Designed with Older 90 Degree Technology with a Provided Adapter for your Full-Length Firearm

SUR

SUPPRESSED UPPER RECEIVER

The 300 Blackout Integrated Suppressed Upper Receiver delivers the ultimate in sound based performance. The combined barrel and pinned and welded suppressor provides a balanced 16" overall length barrel which only requires a single tax stamp. The MCX based upper was designed to fit standard M4A1 and standard AR15 lowers with supplied components. The M4 Receiver, 1913 Adapter, and Matchlite Duo trigger are included with the upper.

SIG SAUER® was recently awarded a contract from the Department of Defense to upgrade existing M4A1 carbines with a Suppressed Upper Receiver to optimize military weapons for continuous suppressed use on the battlefield. The SIG SAUER SUR 300 was based on this military platform.

SUR300

300 BLK UPPER
SUR3000

PISTOL

SUPPRESSORS

The newest pistol suppressor line from SIG SAUER features completely modular and configurable titanium baffles for the ultimate in lightweight performance that allows the user to personalize their suppressor for overall length, weight, and sound. The MOD-X9 and MOD-X45 provide class leading sound performance and can be easily disassembled and reconfigured with fewer baffles when your priority is size over sound. The MOD-X suppressors feature 21 points of impact adjustment and come with a fixed barrel spacer for carbine use. Each MOD-X suppressor includes the most popular inch and metric piston for its given caliber.

new

MODX45

ACCESSORIES

SIG SAUER PISTOL PISTONS

Pistol suppressor pistons can convert thread pitch or caliber

- Made of 17-4 Heat-Treated Stainless Steel.
- Available in: (9/16-24), (M14.5x1 LH), (M16x1 LH), (.578x28), (1/2x28), (M13.5x1 LH)

SUPPRESSOR TOOLS

Factory reccommended Wrenches for SIG SAUER Suppressor Products.

- Duel Hex, Open End
- QD Keyed, Suppressor Wrench
- Dual Hex, End Caps Wrench
- SRD22X Suppressor Wrench

HANDGUARDS

Constructed of Military grade aluminum and features a top picatinny rail for sight and optic.

- Wide Handguard to Accommodate Suppressors
- Multiple Gas Block Access Ports for Different Length Barrels and Calibers
- M-LOK® Rails on Sides and Bottom

MUZZLE BRAKES

Add additional baffle protection from unburned powder particulates

- Reduces Felt Recoil
- Reduces Ground Disturbance
- User-Replaceable
- Simple and Fast Timing

FLASH HIDERS

For Non-Suppressed Firing

- Reduces Flash over Brake use
- User-Replaceable
- Simple and Fast Timing

TAPER-LOK® MOUNTS

Interchangeable Taper-Lok mounts are compatible with all QD SIG Suppressors

- Revolutionary Taper-Lok Fast-Attach System Enables Quick and Simple Muzzle Device Installation
- No Shims
- Forward Thinking Design, Optimizes Alignment, Improves Accuracy and Greatly Reduces Point-of-Impact (POI) Shift, even after Multiple Install / Removal Cycles

SRD9-MPX ADAPTER/MUZZLE BRAKE

While the SRD9 handgun suppressors come with a M13.5x1LH Piston and a fixed barrel adapter for mounting the suppressor on a fixed barrel host, like the Sig MPX 9mm pistol/SBR, a one piece mount was designed for Law Enforcement, Military and Government customers who wanted a dedicated system.

- Replaces the SRD9 Piston Housing Assembly
- Used with the SRD45 suppressor instead of a M13.5x1LH piston for 9mm carbine/fixed barrel host use.

SIG AIR

sigsauer.com

SIG AIR

SIG AIR

BY SIG SAUER

From the most elite name in firearms comes the most innovative line of airguns that combines the unmatched reliability, performance, and exacting standards of SIG SAUER.

SIG AIR products are designed to imitate the look, weight, balance, and handling characteristics of their traditional firearm counterpart. The full line of SIG AIR products delivers a completely authentic SIG handling experience with the firepower you can rely on for all of your hunting, sporting, and practical training needs.

sigsauer.com

TECHNOLOGY

PATENTED
BREAK BARREL TECHNOLOGY

ASP MATCHLITE TRIGGER

A completely new two-stage adjustable match-grade trigger system from SIG Air that performs better that traditional airgun triggers. Can be adjusted to eight different pull rates ranging from 2.5lbs. – 4lbs., and breaks at 4mm regardless of the selected pull rate.

GLIDELITE COCKING SYSTEM

The SIG AIR proprietary Glidelite cocking system allows the break barrel rifle to cock at 33lbs vs. 49-52lbs. making it easier to use than other break barrel rifles in the market today.

BREECH-LOCKING SYSTEM

This proprietary design precisely aligns the barrel to the action, ensuring consistent accuracy.

PRECISION
AIRGUN TECHNOLOGY

PRE-CHARGED PNEUMATIC (PCP)

Airguns that use air from a SCUBA tank, a high-pressure hand pump, or compressor and is stored in a high-pressure reservoir within the airgun. The PCP technology delivers highly accurate, consistent, and virtually recoil-free operation.

SINGLE STROKE PNEUMATIC (SSP)

Airguns with a self-contained system that only requires a single stroke to fully charge the system. SSP airguns are easy to cock, highly consistent, and incredibly accurate.

PATENTED
CO_2 TECHNOLOGY

SIG ASP RIFLES

SIG AIR MPX and MCX CO_2 rifles are designed and engineered for unparalleled performance and come equipped with the SIG Rapid Pellet Magazine (RPM) that smoothly feeds 30 rounds in 3.5 seconds.

SIG ASP PISTOLS

SIG AIR ASP pistols utilize the SIG patented CO_2 technology and feature the SIG Rapid Pellet Magazine in 20 or 30 rounds (varies by model) that allows for more trigger time between refills.

CAM LEVER CO_2 LOADING

The innovative cam lever loading system automatically seats and pierces the CO_2 cartridges without the use of tools.

PATENTED
DROP MAGAZINE TECHNOLOGY

20-ROUND RAPID PELLET MAGAZINE

The SIG drop magazine houses a 20-round Rapid Pellet Magazine belt and 12g CO_2 cartridge with a cam lever port for quick and easy reloads.

ASP20

BREAK BARREL AIR RIFLES

Shoot with less effort and greater accuracy with the SIG AIR ASP. The most advanced break barrel air rifle to hit the marketplace with consistent barrel lock-up, lower cocking effort, smooth trigger pull, and the premium rifling that can only come from SIG SAUER.

SIG AIR ACCESSORIES

ENGINEERED TO A NEW STANDARD OF PERFORMANCE

PELLETS

PRECISION MEETS PERFORMANCE

SIG AIR lead pellets have been engineered for optimal performance using specific blends of material and design features. All SIG AIR Match pellets are designed for target shooting. SIG AIR Crux pellets are best for long-range accuracy. SIG AIR WRAITH pellets will increase penetration. No matter what your purpose there's a SIG AIR pellet for every shooters needs.

MATCH

WRAITH™

CRUX™

CO_2 CYLINDERS

PREMIUM AIRGUN PERFORMANCE

A high quality, cleaner gas in a superior engineered cylinder will influence the lifetime and performance of any airgun. Investing in SIG premium CO_2 cylinders for your SIG AIR products will ensure long lasting SIG performance.

- Standard Neck Air Ports
- Fit most Airguns designed for use with 12g or 90g CO_2 cartridges
- Mutiple Count Packages
- Stable Consistent Power Outputs

90g CO2 Cylinder

12g CO2 Cylinder

MAGAZINES

ELEVATE YOUR FIREPOWER

The patented SIG AIR Rapid Pellet Magazines (RPM) are engineered to elevate performance and firepower. Using a belt-fed pellet drive system, the SIG RPM smooth feeds 20 or 30 rounds per belt and is constructed of rugged polymer composite.

30-Round RPM™ Magazine
(Rapid Pellet Magazine)

30 Round RPM Magazine

M17 20 Round PRM Magazine

SHOOTING TRAPS

The SIG Pellet Trap delivers ease and enjoyment with its simple setup design. The heavy duty metal framing offers noise recognition and minimal clean-up for endless skill-building and conditioning drills. Traps come with 25ct paper targets and additional paper target refills are available.

TEXAS STAR TARGETS

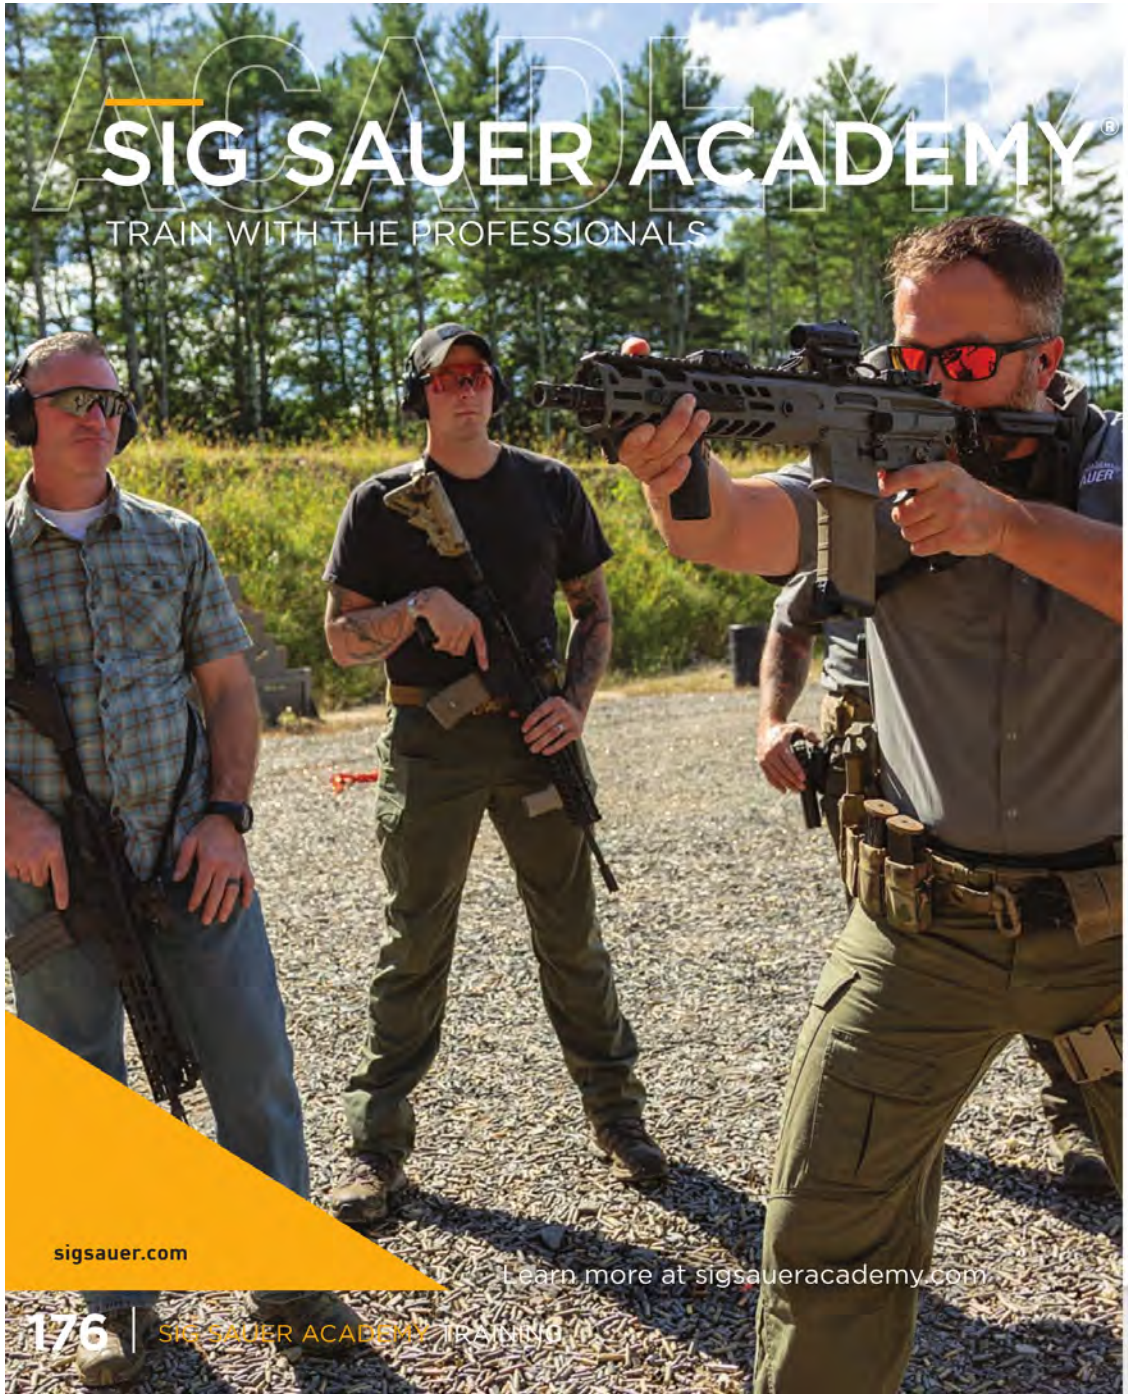

Nine center mass targets rotate around a single, central axis using strikes to vary both the gravity-driven speed and direction of the spin for engaging and dynamic practice.

SHOOTING GALLERIES

SIG AIR shooting galleries feature two or four center mass targets that magnetically lock down when struck. Used pellets are collected for easy clean-up and the central SIG logo knockdown target easily resets the gallery.

When it comes to the use of firearms in any situation, a person will rarely rise to the occasion, but instead will default to the level of their training. It's this principle, and this reality that we at the SIG SAUER Academy℠ have dedicated ourselves to. With a team of world-class instructors, from a broad range of backgrounds, the SIG SAUER Academy provides the finest firearms and tactics training available today. Using our adaptive, performance-based training methods we can help develop and expand the abilities of virtually any level of firearms user from beginners to the most experienced. Our 150 acre, state-of-the-art facility provides us the ability to train in nearly every discipline, create almost any type of environment, and help to prepare for practically any situation.

The SIG SAUER Academy and its staff of professionals is committed to delivering the most realistic, fundamentally sound training experience possible, with a promise to improve the skills of everyone who trains with us — guaranteed. It's a promise we don't make lightly, knowing that those who come here rely on us to give them the best training available. They refuse to settle for anything less, and so do we.

SIG SAUER ACADEMY

NO MATTER WHAT YOU SHOOT, WE'LL MAKE YOU A BETTER SHOOTER. GUARANTEED.

The SIG SAUER Academy[SM] is internationally recognized for the use of superior training techniques and unmatched results. Armed professionals and responsible citizens continuously choose to train at the SIG SAUER Academy for all their firearms, tactical, and related training needs.

PRIVATE AND MOBILE TRAINING

The SIG SAUER Academy is dedicated to providing the highest level of training available, tailored to fit any individual or organized group needs. We provide customized private classes at our Academy, or we can take our expert training to a private location upon request.

Private instruction ranges from foundational shooting tutorials to advanced dynamic tactics in a one-on-one or group learning environment. Private classes for corporate and executive clients, as well as government agencies and private groups, or individuals, are available either as a standard course listed on our website, or as a custom class designed to your specific needs.

FACILITIES

The SIG SAUER Academy offers state-of-the-art indoor and outdoor training facilities. We have continued to develop a variety of ranges and infrastructures including a maritime training area, a tactical training area, multiple shoothouses, the only publicly accessible 1,000 yard range in the New England area, and a 270 degree range. Additionally, the Academy is home to the SIG SAUER Pro Shop that displays the entire line of SIG SAUER pistols, rifles, electro-optics, suppressors, ammunition, airguns, accessories, and apparel.

ABOUT OUR COURSES

PISTOL/RIFLE/SHOTGUN/PRECISION SCOPED RIFLE

The SIG SAUER Academy has developed a unique firearms training concept to achieve results for every level. All platforms—pistol, rifle, shotgun and precision scoped rifle courses—are taught from a foundational level. Depending on your personal training objective, we offer classes for personal and home defense, skill building, and instructor certification.

ENHANCED

Enhanced training courses help provide students the knowledge and skills to improve their performance in a chaotic environment. These courses include specific subjects such as medical training, executive protection, vehicle, and scenario-based training. Each course will teach the student how to make good decisions with confidence under high stress scenarios.

ARMORER

Armorer's certification courses give the student a complete understanding of SIG SAUER firearms, proper maintenance, and inspection, in order to preserve the factory warranty. Students who successfully complete these courses receive a three year armorer certification.

LAW ENFORCEMENT/MILITARY

SIG SAUER Academy is dedicated to providing the highest level of global training for military and law enforcement professionals. Any course can be conducted remotely or customized to meet agency or department needs. Custom course design and implementation allow for any desired capability and duration of training.

TEAM SIG

A TEAM OF THE HIGHEST CALIBER, COMMITTED TO EXCELLENCE

The mission of Team SIG is to support the development and production of the SIG SAUER P320 pistol platform, the complete SIG SAUER rifle product line, SIG SAUER Electro-Optics, and SIG SAUER Ammunition. Team SIG works closely with the SIG SAUER engineers throughout the development and design of all SIG SAUER products to ensure every shooter enjoys the features that the Team SIG professional shooters demand.

sigsauer.com

ABOUT OUR SHOOTERS

MAX MICHEL - TEAM CAPTAIN

Max Michel, Jr. is one of the most dominant shooters in the world today and is recognized as a top tier athlete and instructor. Max is s a Guinness World Record holder and International Practical Shooting Confederation World Champion. He holds 7 World Speed Shooting Championships, 11 USPSA National Championships, 5 US Steel National Championships, is a 3 time Carry Optics National Champion, and holds more than 200 additional major championship victories. As an international competitor Max has represented the U.S.A. in the last seven IPSC World Shoots and returned home bearing gold each time.

For Team SIG Max focuses primarily on carry optics competition, and as Team SIG Captain he serves as a mentor for Team SIG and is a premier brand ambassador for SIG SAUER. Max is a U.S. Army Veteran.

Pistol: P320® XFIVE
Optic: ROMEO1 or ROMEO3®
Ammo: Match Elite (9mm)

LENA MICULEK - PRO SHOOTER

Regarded as the top female 3-Gun competitor in the world Lena has proved she is a force to be reckoned with. Lena entered into the competitive shooting world in 2005 with five consecutive Sportsman's Team Challenge Sub-junior and Junior Division national titles, and at 17 years old she won her first World Champion title. Since turning pro Lena has earned more than 75 major wins including back to back NRA World Shoot "High Lady" tiles, a "High Lady" title for carry optics, and 7 world titles. Additionally, in pistol caliber carbine (PCC) competition Lena is breaking barriers for female professional shooters. At the 2018 USPSA Nationals she become the first female to earn a top five finish in PCC and was the first female to win Master Class for PCC.

For Team SIG Lena competes primarily in pistol caliber carbine (PCC)and 3-Gun competition.

Pistol: P320® XFIVE
Rifle: SIG MPX® PCC
Optic: ROMEO3
Ammo: Match Elite (9mm)

DANIEL HORNER - PRO SHOOTER

Daniel Horner is a multi-discipline World Champion shooter having captured over 125 championship titles at the world, national, regional, and state level. His titles include: 10 USPSA Multi-Gun National Championships, 4 3-Gun National Championships, 2 International Sniper Competitions, 2 IDPA National Championships, an IPSC Shotgun National Championship, an NRA World Shooting Championship, and many more.

Daniel is a U.S. Army Veteran and was recruited to the Army to join the U.S. Army Marksmanship Unit (USAMU), where he became one of the most decorated shooters in team history. He served as the Coach of the USAMU Action Shooting Team, and during his service was twice selected as the Military Marksmanship Association Soldier of the Year.

For Team SIG Daniel competes primarily in 3-gun and long-range rifle competition.

Pistol: P320® XFIVE with iron sights
Rifle: SIGM400®
Optic: TANGO6®
Ammo: Match Elite (9mm), Match (.223), Varmint (.223)

SPEC1

COMPLETE PREMIUM CARE SYSTEM

SIG SAUER is pleased to introduce SPEC1, a premium firearm cleaning system. SPEC1 is a non-toxic, non-hazardous, pure synthetic based lubricant with no Teflon™, silicones, or petroleum distillates. SPEC1 is formulated to reduce heat and wear, and to keep firearms running smoother and lasting longer. SPEC1 will not attract dust, dirt and sand, or feel sticky and tacky like most petroleum-based products on the market today. This synthetic lubricant will not dry up, freeze in cold temperatures, or allow carbon, copper, and plastic wad fouling to stick in the barrels or to gun parts. This non-toxic, non-hazardous formula is completely safe for the end user during application, cleaning, and firing.

SPEC1 **PREMIUM CLEANING SYSTEM**

- Premium Bore Solvent that removes Carbon, Lead, and Plastic
- Premium Firearm Cleaner / Degreaser
- Premium Blend Firearm Lubricant

SPEC1 **PREMIUM BLEND**

- Pure synthetic based lubricant with no Teflon™, silicones, or petroleum distillates
- Available in a 2 and 4oz Bottles

SPEC1 **PREMIUM BLEND GREASE**

- Similar Properties as the Premium Blend but in a Grease for Difficult Service Areas or Areas that Require Grease.
- 100% Synthetic

SPEC1 **PREMIUM BLEND 30 HEAVY DUTY**

- Pure synthetic based lubricant with no Teflon™, silicones, or petroleum distillates
- Available in a 2 and 4oz Bottles
- 30 WT Equivalent
